More Control

# BFlex Single-use Bronchoscopes

## A Brighter Vision in Single-use Bronchoscopy

BFlex™ single-use bronchoscopes combine the convenience and accessibility of single-use tools with the performance you expect from a reusable bronchoscope.

## Be Ready

Single-use means easier access and faster setup so you can start turning over more cases in less time.

- Easy to transport, setup, and use
- Single-use eliminates the risk of cross-contamination due to ineffective reprocessing
- Reduce costs by eliminating reprocessing, expensive repairs, and service contracts
- Reduce environmental impact by eliminating the chemicals and supplies used during reprocessing

## Be Focused

BFlex™ delivers exceptional visualization of the airway.

- Bright, crisp image quality and brilliant display on a 15" high-definition monitor
- Dynamic Light Control® automatically adjusts image brightness to help you drive the scope quickly and better identify landmarks
- Anti-Fog technology reduces camera fogging during use
- Workstation features an articulating arm that positions the monitor within the user's line of sight

## Be in Control

Features designed for efficiency.

- Balanced rigidity and flexibility for improved control in difficult cases
- A convenient tube retainer keeps the ETT up and out of the way until you need it
- Excellent articulation for increased maneuverability; even around tight corners
- Proven suction – BFlex 5.8 is designed with a large working channel to handle challenging secretions

“

**BFlex enables us to establish a new benchmark of timeliness of diagnosis and management — and helps ensure excellence in patient care.**

Dr. Louis M. Guzzi, M.D.

Click or scan to view training videos

Anti-fog technology

Working channel remains fully patent, for suction efficiency

Wide range of articulation

Visible measurement markers for positional accuracy and clinical reference

# BFlex Single-use Bronchoscopes

Multiple Sizes to Support Procedures Across Hospital Departments

**BFlex 2.8**  
Gives you the control you need for pediatric airway visualization

**BFlex 3.8**  
Delivers the drivability and image quality needed for lung isolation procedures

**BFlex 5.0**  
Offers the perfect balance of strength and flexibility for the majority of your bronchoscopy needs

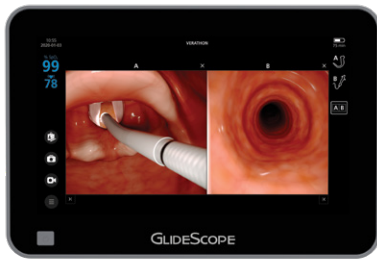

**BFlex 5.8**  
Provides efficient suctioning with the largest working channel in a single-use bronchoscope

# Specifications

	BFlex 2.8	BFlex 3.8	BFlex 5.0	BFlex 5.8
Insertion Tube Outer Diameter (mm)	2.8	3.8	5.0	5.8
Working Channel Inner Diameter (mm)	NA	1.2	2.2	3.0
<b>Insertion Tube</b>				
Length of Flexible Insertion Tube (mm)	566 <sup>1</sup>	566 <sup>1</sup>	566 <sup>1</sup>	566 <sup>1</sup>
Length of Distal Tip (mm)	44	44	44	44
Length of Working Channel (mm)	NA	696 <sup>†</sup>	696 <sup>†</sup>	696 <sup>†</sup>
Volume of Working Channel	NA	0.98 cc (0.98 mL)	2.77 cc (2.77 mL)	5.2 cc (5.2mL)
<b>Compatible Tools</b>				
Minimum Endotracheal Tube Size (inner diameter, mm)	4.0	5.0	6.0	7.0
Maximum Accessory Width (mm)	NA	1.0	2.0	2.6
Suction Tubing Internal Diameter (mm)	NA	6.0-7.0, inclusively	6.0-7.0, inclusively	6.0-7.0, inclusively
Minimum Double Lumen Tube Size	32 Fr	35 Fr	NA	NA
<b>Imaging</b>				
Depth of Field (mm)	5-50			
Field of view	85° (horizontal/vertical), 120° (diagonal)			

1. The protective sheathing of the distal tip extends 6 mm over the insertion tube.
2. There is no guarantee that accessories selected solely using maximum insertion portion width and working length will be compatible in combination.

## Compatible Monitors:

GlideScope® Core™ 15

GlideScope® Core™ 10

GlideScope® Video Monitor

# The Total Airway Solution

## Single-use Video Laryngoscopy and Bronchoscopy In One Mobile System

GlideScope® with BFlex™ – the Total Airway Solution – integrates high quality video laryngoscopy and bronchoscopy with live dual view and brilliant visualization – empowering you to act with confidence in routine and emergent situations.

### Easier Intubation

When every second counts, live simultaneous video laryngoscopy and bronchoscopy views help you navigate and secure difficult airways.

### Advanced Workstation for Streamlined Workflow

- Easy setup and faster turnaround with the advanced workstation
- Access to all the tools you need right at your fingertips
- Convenient prep tray and storage bins organize critical cables and tools

### Extended Portfolio of Tools

- Quick access to tools covering routine and difficult airway management, bedside bronchoscopy, and more
- Broadest range of single-use video laryngoscopes and multiple sizes of bronchoscopes for pediatrics to adults
